DECKING SCREWS

Mex® FLAT-A4

Mex-Flat A4

sizes: 5,5 x 40 / 5,5 x 50 /
5,5 x 60 / 5,5 x 70 mm

torx: TX25

Mex-Flat A4, made from austenitic stainless steel A4, is specially developed for fastening decking boards to a wooden substructure. Suitable for fixing hard, exotic woods with high tannin content (bangkirai, massaranduba, merbau, garapa, ipe, teak), as well as softwoods (thermowood pine, larch).

The screw features trilobular geometry, an extra reinforced shank, an additional threading section, and a Torx drive. For more details, see the product's technical data sheet.

Mex-Flat ALU A4

sizes: 5,5 x 46 / 5,5 x 51 mm
torx: TX25

Specially developed for fastening decking boards to aluminum profile substructures.

Mex® FLAT-C1

sizes: 4 x 40 / 4 x 50 /
4,5 x 70 / 5 x 50 / 5 x 60 mm

torx: TX15, TX20, TX25

Mex-Flat C1, Mex-Flat C1, made from martensitic stainless steel C1, is specially developed for fastening decking boards to a wooden substructure. Suitable for fixing softwoods (larch, pine, spruce).

The screw has an extra flat head, cutting and driving threads, and a Torx drive. For more details, see the product's technical data sheet.

Mex® CLASSIC-A4

Mex-Classic A4

sizes: 4 x 40 / 4,5 x 50 / 4,5 x 60 /
5 x 40 / 5 x 50/ 5 x 60 / 5 x 70 mm

torx: TX15/20/25

Mex-Classic, made from austenitic stainless steel A4, is specially developed for fastening wooden decking and cladding profiles to wooden substructures.

Suitable for hard, exotic woods with high tannin content (bangkirai, massaranduba, merbau, garapa, ipe, teak), as well as softwoods (thermowood pine, larch).

The screw is characterized by a rounded head, driving thread, and a Torx profile. For more details, see the product's technical data sheet.

Mex® CLASSIC-ANTIQUE-A2

Mex-Classic A2 Antique

sizes: 4 x 40 / 5 x 50 /
5 x 60 / 5 x 70 mm

torx: TX 15/25

Mex-Classic, made from austenitic stainless steel A2, is developed for fastening wooden components to a supporting wooden structure.
Suitable for exotic woods with lower tannin content (bangkirai, dark red meranti, etc.) and softwoods without restriction.
Not suitable for environments with chlorine or salt exposure.
For more details, see the product's technical data sheet.

Mex® CLASSIC-C1

sizes: 3,2 x 35 / 4 x 40 /
5 x 50 / 5 x 60 mm

torx: TX15/25

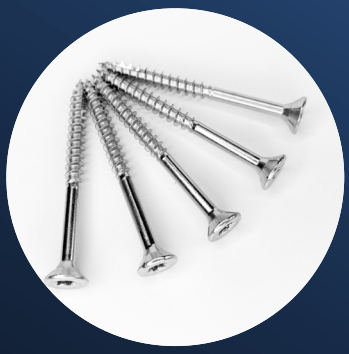
Mex-Classic C1, Mex-Classic C1, made from martensitic stainless steel C1, is specially developed for fastening wooden decking and cladding profiles to wooden substructures. Suitable for softwoods (larch, pine, spruce).
The screw features a rounded head, cutting and driving threads, and a Torx drive. For more details, see the product's technical data sheet.

CLADDING SCREWS

Mex® COMPLEX-A4

sizes: 4 x 40 / 4 x 45 / 4 x 50 / 4 x 55 / 4 x 60 / 4,5 x 40 / 4,5 x 45 / 4,5 x 50 / 4,5 x 60 / 4,5 x 70 / 5 x 40 / 5 x 45 / 5 x 50 / 5 x 60 / 5 x 70 mm

torx: TX20, TX25



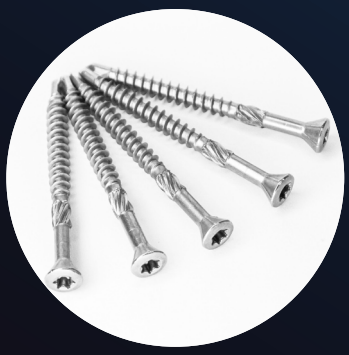
Mex-Complex A4, made from austenitic stainless steel A4, is specially developed for fastening wooden cladding profiles to wooden substructures. Suitable for medium-hard, exotic woods containing tannins (dark red meranti, oak, teak, ash) as well as softwoods (cedar, larch, thermowood pine, spruce).

The screw features a specially designed countersunk head, a driving thread, and a Torx profile. For more details, see the product's technical data sheet.

Mex® FIX-C1

sizes: 4 x 40 / 4 x 50 / 4 x 60 / 4,5 x 50 / 4,5 x 60 / 4,5 x 70 / 5 x 45 / 5 x 50 / 5 x 60 / 5 x 70 / 5 x 80 mm

torx: TX15, TX20



Mex-Fix C1, made from martensitic stainless steel C1, is specially developed for fastening wooden profiles to wooden substructures. Suitable for softwoods (larch, pine, spruce).

The screw features a rounded head, cutting and driving threads, a specially designed tip, and a Torx profile. For more details, see the product's technical data sheet.

Mex® SCREWS

MEX-SCREWS is a brand of high-quality wood screws designed for decking, cladding, and universal use. Each product line is developed with a focus on the specific requirements of woodworking projects, whether it's precise installation of wooden façades with an emphasis on aesthetic fastening, wood properties, and color, or strong and durable joints for decking structures exposed to outdoor horizontal surfaces.

Mex® TOOLS

Mex® TOOLS HOBBY

MexTOOLS Hobby is a line of assembly accessories designed for home workshops, small to medium construction projects, and installations where reliability, ease of use, and affordability are key.
This red-labeled range includes practical tools that enable precise and efficient work when installing decks, cladding, and performing other common construction tasks around houses and buildings.

Key advantages of MexTOOLS Hobby:

- High-quality S2 steel core with a hardness of up to 58–60 HRC
- Suitable for use in workshops, construction sites, and installations
- Clear labeling and easy use

The ideal choice for builders and DIYers who expect reliable performance in everyday tasks.

Mex® TOOLS PROFI

MexTOOLS Profi is a line of assembly accessories designed for daily professional use on construction sites, during cladding and decking installations, and similar applications.
This blue-labeled range is optimized for long service life, high precision, and maximum reliability even under heavy-duty conditions.

Key advantages of MexTOOLS Profi:

- Higher material quality, more precise manufacturing, longer lifespan
- Core hardness up to 58–60 HRC
- Ideal for professionals who value performance and efficiency
- Clear and permanent labeling ensures clarity even with frequent use

The ideal choice for professionals who demand maximum reliability, accuracy, and durability in every work situation.

Our products are designed to make your job easier, whether it's high-quality wood **screws** or a wide range of **accessories**. With our screws, you gain reliability and long service life, ensuring perfect results every time.

We offer accessories in two lines:
Profi for demanding professionals, and Hobby for home DIYers.

No matter which product you choose, you can always rely on expert support and friendly customer service to make your purchasing process easier.

With us, working with wood is a joy!
